## Volume 48

<b>Preface – Fatty Acids and Cell Signalling</b>	<b>1</b>
<i>E. A. Nunez</i>	
<b>Function of Dietary Polyunsaturated Fatty Acids in the Nervous System</b>	<b>5</b>
<i>J. M. Bourre, M. Bonneal, M. Clement, O. Dumont, G. Durand, H. Lafont, G. Nalbone and M. Piciotti</i>	
<b>Physiochemical Approach of the Function of the Fatty Acids Incorporation in Biological Membranes</b>	<b>7</b>
<i>C. L. Léger</i>	
<b>Interactions Between Arachidonic and Eicosapentaenoic Acids During Their Dioxygenase-dependent Peroxidation</b>	<b>23</b>
<i>M. Lagarde, E. Véricel, M. Croset, C. Calzada, J. C. Bordet and M. Guichardant</i>	
<b>Dynamics of the Membrane Lipid Phase</b>	<b>27</b>
<i>S. Cribier, G. Morrot and A. Zachowski</i>	
<b>Cytoplasmic Fatty Acid Binding Protein: Significance for Intracellular Transport of Fatty Acids and Putative Role on Signal Transduction Pathways</b>	<b>33</b>
<i>J. F. C. Glatz, M. M. Vork, D. P. Cistola and G. J. van der Vusse</i>	
<b>Fatty Acids May Regulate Aldosterone Secretion and Mediate Some of Insulin's Effects on Blood Pressure</b>	<b>43</b>
<i>T. L. Goodfriend, D. L. Ball, M. E. Elliott, A. Chabhi, T. Duong, H. Raff, E. G. Schneider, R. D. Brown and M. H. Weinbergers</i>	
<b>Modulation of Lipid Derived Mediators by Polyunsaturated Fatty Acids</b>	<b>51</b>
<i>C. Galli, F. Marangoni and G. Galella</i>	
<b>Fatty Acids, Inflammation and Immune Responses</b>	<b>57</b>
<i>R. B. Zurier</i>	
<b>Free Fatty Acids as Modulators of the Steroid Hormone Message</b>	<b>63</b>
<i>E. A. Nunez</i>	
<b>Role of Polyunsaturated Fatty Acids as Signal Transducers: Amplification of Signals from Growth Factor Receptors by Fatty Acids in Mammary Epithelial Cells</b>	<b>71</b>
<i>G. K. Bandyopadhyay, S.-i. Hwang, W. Imagawa and S. Nandi</i>	
<b>Arachidonic Acid and Cell Signalling in the Ovary and Placenta</b>	<b>79</b>
<i>D. L. Boone, W. D. Currie and P. C. K. Leung</i>	
<b>Regulation of Gene Expression by Fatty Acids in the Adipose Cell</b>	<b>89</b>
<i>G. Ailhaud</i>	
<b>Modulation by Sex Hormones of the Membranous Transducing System Regulating Fatty Acid Mobilization in Adipose Tissue</b>	<b>91</b>
<i>Y. Giudicelli, M. -N. Dieudonne, D. Lacasa, Y. -N. Pasquier and R. Pecquery</i>	
<b>The Effects of Gamma-linolenic Acid on Breast Pain and Diabetic Neuropathy: Possible Non-eicosanoid Mechanisms</b>	<b>101</b>
<i>D. F. Horrobin</i>	
<b>Mechanism of Lipid Mobilization Associated with Cancer Cachexia: Interaction Between the Polyunsaturated Fatty Acid, Eicosapentaenoic Acid, and Inhibitory Guanine Nucleotide-Regulatory Protein</b>	<b>105</b>
<i>M. J. Tisdale</i>	
<b>The Role of Free Fatty Acids in Regulating the Tissue Availability and Synthesis of Sex Steroids</b>	<b>111</b>
<i>M. J. Reed, S. A. Dunkley, A. Singh, B. S. Thomas, A. P. Haines and J. K. Cruikshank</i>	
<b>Role of Fatty Acids in Signal Transduction: Modulators and Messengers</b>	<b>117</b>
<i>C. Sumida, R. Graber and E. Nunez</i>	
<b>Monthly Prostaglandin Bibliography prepared by the University of Sheffield Biomedical Information Service</b>	

## Review

- Do Leukotrienes Play a Role in the Regulation of Proliferation of Normal and Leukemic Hemopoietic Cells?** 123  
*R. G. Wickremasinghe, M. A. Khan and A. V. Hoffbrand*
- Prostaglandin  $F_{2\alpha}$  Synthesis in the Hippocampal Mossy Fiber Synaptosomal Preparation: I. Dependence in Arachidonic Acid, Phospholipase  $A_2$ , Calcium Availability and Membrane Depolarization** 127  
*D. Separovic and R. V. Dorman*
- Lipid Intake During Pregnancy in Developing Countries: Possible Effect of Essential Fatty Acid Deficiency on Fetal Growth** 139  
*P.-Y. Robillard and R. Christon*
- Type A Behavior and Alcohol Consumption: Effects on Resting and Post-Exercise Bleeding Time Thromboxane and Prostacyclin Metabolites** 143  
*D. J. Schonwetter, J. M. Gerrard and D. G. Dyck*
- A Comparison of Hepatic, Splenic, Peritoneal and Alveolar Macrophages with Respect to  $PGE_2$ ,  $TXB_2$ , Production and ADCC Function** 149  
*J. Z. Wu, C. K. Ogle, J. D. Ogle and J. W. Alexander*
- Effect of Pravastatin on Fatty Acid Profile of Low Density Lipoprotein in Patients with Hypercholesterolemia** 155  
*C. Y. Hong, S. J. Lin, M. S. Chang, B. N. Chiang, P. M. Shen and M. S. Shiao*
- The Pharmacokinetics and Pharmacodynamics of the Prostacyclin Analog 15AU81 in the Anesthetized Beagle Dog** 159  
*M. J. McNulty, J. M. Sailstad and R. P. Steffen*
- Radioimmunoassay for the Chemical Stable Prostacyclin Analog, 15AU81: a Preliminary Pharmacokinetics Study in the Dog** 167  
*J. W. A. Findlay, M. J. McNulty, T. L. Page, S. Y. Chang and J. M. Sailstad*
- Prostacyclin is a Potent Anti-mutagen** 175  
*R. Koratkar, U. N. Das, P. Sangeetha Sagar, G. Ramesh, M. Padma, G. Sraven Kumar, K. Vijay and N. Madhavi*
- Immunohistochemical Localization of  $PGF_{2\alpha}$  Receptor in the Rat Oviduct** 185  
*D. J. Orlicky and C. Williams-Skipp*
- Protective Effect of Diclofenac Sodium Against Endotoxic Shock in Anaesthetized Pigs** 193  
*T. Mózes, J. P. C. Heiligers, C. J. A. M. Tak, F. J. Zijlstra, S. Ben-Efraim, P. R. Saxena and I. L. Bonta*
- Book Review**
- Polyunsaturated Fatty Acids in Human Nutrition** 201  
*J. Y. Jeremy*
- Monthly Prostaglandin Bibliography prepared by Sheffield University Biomedical Information Service**
- Review**
- Prostaglandin and Portal Hypertension** 203  
*C. Guarner and G. Soriano*
- Exaggerated Splanchnic  $PGI_2$  Release Following Acute Hemorrhage is Due to New Protein Synthesis** 207  
*S. I. Myers and R. Hernandez*
- Thromboxane Receptor Antagonism and Synthase Inhibition in Cerebral Ischemia** 211  
*L. C. Pettigrew and R. J. Kryscio*
- Effects of Guinea-pig Endometrial Proteins on Phospholipase  $A_2$  Activity and Prostaglandin Synthesis** 219  
*C. M. Leckie and N. L. Poyser*
- Indomethacin-induced Gastrointestinal Ulcers in Rats: Effects of Dietary Fatty Acids and Endotoxin** 229  
*J. J. Turek and I. A. Schoenlein*

<b>The Effects of a Cysteinyl Leukotriene Antagonist (ONO-1078) on Antigen-induced Responses in Allergic Sheep</b>	<b>233</b>
<i>W. M. Abraham, A. Ahmed, A. Cortes, M. Sielczak and J. Hallmon</i>	
<b>Effect of a New Leukotriene Receptor Antagonist, ONO-1078, on Human Bronchial Smooth Muscle in vitro</b>	<b>241</b>
<i>H. Fujiwara, N. Kurihara, Ohta, K. Hirata, H. Matsushita, H. Kanazawa and T. Takeda</i>	
<b>Arachidonic Acid Supplementation Dose-dependently Reverses the Effects of a Butter-enriched Diet in Rats</b>	<b>247</b>
<i>M. S. Steel, J. M. Naughton, G. W. Hopkins, A. J. Sinclair and K. O'Dea</i>	
<b>Arachidonic Acid Release and Inositol Lipid Metabolism in Response to Bradykinin and Related Peptides in Human Endometrial Cells in vitro</b>	<b>253</b>
<i>R. C. Bonney, J. S. Beesley, C. Rahman and S. Franks</i>	
<b>Importance of Secondary TXA<sub>2</sub> Release in Mediating of Endothelin-1 Induced Bronchoconstriction and Vasopressin in the Guinea-pig</b>	<b>261</b>
<i>G. Lueddeckens, H. Bigl, J. Sperling, K. Becker, P. Braquet and W. Förster</i>	
<b>PAF-induced Death in NMRI Mice – a Suitable Shock Model for Testing New PAF Receptor Antagonists. Correlation with Eicosanoid Related Substances</b>	<b>265</b>
<i>K. Becker, G. Lueddeckens, R. Grupe and W. Förster</i>	
<b>Relationship Between Factors Influencing Na<sup>+</sup>-K<sup>+</sup>-ATPase Activity and Eicosanoid Production for <sup>14</sup>C-Arachidonic Acid in Spayed Rat Uters</b>	<b>273</b>
<i>A. M. Franchi, A. Motta, A. L. Gimeno and M. A. F. Gimeno</i>	
<b>Monthly Prostaglandin Bibliography prepared by the University of Sheffield Biomedical Information Service</b>	
<b>Review – Calcium Homeostasis and Eicosanoid Formation in Human Platelets</b>	<b>277</b>
<i>B. Brüne, F. von Appen and V. Ullrich</i>	
<b>PGI<sub>2</sub> Production and Angiotensin Converting Enzyme Activity in Cultured Porcine Pulmonary Artery Endothelial Cells Treated with Paraquat</b>	<b>291</b>
<i>N. Tamaru, K. Watanabe and M. Yoshida</i>	
<b>Effect of Leukotrienes of Renal Water Excretion</b>	<b>297</b>
<i>D. A. Hartupée, J. C. Passmore and A. Jimenez</i>	
<b>Ingestion of Marine Oil Reduces Excretion of 11-Dehydrothromboxane B<sub>2</sub>, an Index of Intravascular Production of Thromboxane A<sub>2</sub></b>	<b>305</b>
<i>A. Ferretti, J. T. Judd, P. R. Taylor, P. P. Nair and V. P. Flanagan</i>	
<b>Plant and Marine n-3 Fatty Acids Inhibit Experimental Metastasis of Rat Mammary Adenocarcinoma Cells</b>	<b>309</b>
<i>R. A. Karmali, L. Adams and J. R. Trout</i>	
<b>Changes in Phospholipase A<sub>2</sub> Activity of the Rabbit Ampullary Epithelium by Ovarian Steroids</b>	<b>315</b>
<i>T. Morishita, M. Nozaki, M. Sano, M. Yokoyama, G.-i. Nakamura and H. Nakano</i>	
<b>Changes in Gastric Mucosal Histamine and Prostaglandin E<sub>2</sub>-like Activities in Relation to Portal Somatostatin Following Small Bowel Resection in Guinea-pigs</b>	<b>319</b>
<i>A. Engin, N. Atlan, Z. S. Ercan, E. Ersoy and A. Demirag</i>	
<b>Induction of Apoptosis in Blood Cells from a Patient with Acute Myelogenous Leukemia by SC41661A, a Selective Inhibitor of 5-Lipoxygenase</b>	<b>323</b>

<b>Notice</b>	<b>481</b>
<b>Monthly Prostaglandin Bibliography prepared by the University of Sheffield Biomedical Information Service</b>	

1. The first part of the paper is devoted to a general discussion of the problem of the existence of a solution of the system of equations

for the functions  $u_i(x, y, z)$  and  $v_i(x, y, z)$  satisfying the boundary conditions

on the surface  $S$  of the domain  $V$  and the conditions of continuity at the interface  $S$ .

2. In the second part of the paper we shall consider the problem of the existence of a solution of the system of equations

for the functions  $u_i(x, y, z)$  and  $v_i(x, y, z)$  satisfying the boundary conditions

on the surface  $S$  of the domain  $V$  and the conditions of continuity at the interface  $S$ .

3. In the third part of the paper we shall consider the problem of the existence of a solution of the system of equations

for the functions  $u_i(x, y, z)$  and  $v_i(x, y, z)$  satisfying the boundary conditions

on the surface  $S$  of the domain  $V$  and the conditions of continuity at the interface  $S$ .

4. In the fourth part of the paper we shall consider the problem of the existence of a solution of the system of equations

for the functions  $u_i(x, y, z)$  and  $v_i(x, y, z)$  satisfying the boundary conditions

on the surface  $S$  of the domain  $V$  and the conditions of continuity at the interface  $S$ .

5. In the fifth part of the paper we shall consider the problem of the existence of a solution of the system of equations

for the functions  $u_i(x, y, z)$  and  $v_i(x, y, z)$  satisfying the boundary conditions

on the surface  $S$  of the domain  $V$  and the conditions of continuity at the interface  $S$ .

6. In the sixth part of the paper we shall consider the problem of the existence of a solution of the system of equations

for the functions  $u_i(x, y, z)$  and  $v_i(x, y, z)$  satisfying the boundary conditions

on the surface  $S$  of the domain  $V$  and the conditions of continuity at the interface  $S$ .

7. In the seventh part of the paper we shall consider the problem of the existence of a solution of the system of equations

for the functions  $u_i(x, y, z)$  and  $v_i(x, y, z)$  satisfying the boundary conditions

on the surface  $S$  of the domain  $V$  and the conditions of continuity at the interface  $S$ .

**VOLUME CONTENTS**

**Monthly Prostaglandin Bibliography prepared by Sheffield University Biomedical Information Service**

1. The first part of the document discusses the importance of maintaining accurate records of all transactions. It emphasizes that proper record-keeping is essential for the transparency and accountability of the organization. This section also outlines the various methods used to collect and analyze data, ensuring that the information is reliable and up-to-date.

2. The second part of the document focuses on the implementation of the proposed changes. It details the steps involved in the process, from the initial planning phase to the final execution. This section also addresses the potential challenges that may arise during the implementation process and provides strategies to overcome them.

3. The third part of the document discusses the long-term impact of the changes. It highlights the benefits that the organization can expect to realize, such as improved efficiency, reduced costs, and enhanced customer satisfaction. This section also outlines the ongoing monitoring and evaluation process to ensure that the changes continue to deliver the desired results.

4. The fourth part of the document discusses the future of the organization. It outlines the vision and mission statement, and provides a roadmap for the organization's growth and development. This section also discusses the role of the organization in the community and the environment, and the commitment to social responsibility.

5. The fifth part of the document discusses the financial aspects of the organization. It provides a detailed overview of the organization's financial performance, including the income statement, balance sheet, and cash flow statement. This section also discusses the organization's financial strategy and the measures taken to ensure financial stability and growth.

6. The sixth part of the document discusses the human resources of the organization. It outlines the organization's recruitment and selection process, and provides information on the current workforce. This section also discusses the organization's training and development programs, and the measures taken to ensure the highest quality of the workforce.

7. The seventh part of the document discusses the marketing and sales aspects of the organization. It outlines the organization's marketing strategy and the measures taken to promote the organization's products and services. This section also discusses the organization's sales performance and the measures taken to improve sales volume and revenue.

8. The eighth part of the document discusses the legal and regulatory aspects of the organization. It outlines the organization's compliance with applicable laws and regulations, and provides information on the organization's legal structure. This section also discusses the organization's risk management strategy and the measures taken to minimize legal and regulatory risks.

9. The ninth part of the document discusses the organizational culture and values. It outlines the organization's core values and the measures taken to promote a positive organizational culture. This section also discusses the organization's commitment to diversity and inclusion, and the measures taken to ensure that all employees are treated fairly and equitably.

10. The tenth part of the document discusses the conclusion of the report. It summarizes the key findings of the report and provides recommendations for the organization's future actions. This section also expresses the organization's commitment to transparency and accountability, and the commitment to the highest standards of ethical conduct.
